REQUEST FOR RECONSIDERATION

Dear Sir:

In response to the Final Office Action mailed March 9, 2006, reconsideration and withdrawal of the sole rejection contained therein are respectfully requested for the following reasons.

Claims 1-61 are pending herein, and remain unchanged.

In Applicants' prior response dated November 28, 2005, Applicants addressed the §103 rejection over JP '898 in detail. To summarize, Applicants explained that not only does the prior art fail to disclose or suggest all features of the claimed sapphire single crystal, but also fails to *enable* formation of such a sapphire single crystal.

In response, in the Final Rejection dated March 9, 2006, the PTO deems the explanation unpersuasive, drawn to attorney argument that is unsupported by evidence. To conclusively address the deficiencies of the prior art, submitted herewith is a detailed Rule 132 Declaration made by the first named inventor, John W. Locher. To briefly summarize, the present inventors have developed a notably innovative process flow that incorporates important features to enable growth of the sapphire single crystal as claimed. Those features include utilization of a high
